17 PARTNERSHIPS FOR THE GOALS

International collaboration on gathering and measuring data for the Sustainable Development Goals (SDGs) is actively driven by comprehensive multi-stakeholder partnerships across global institutions. Based on the provided institutional evidence, universities are expanding the global data ecosystem through cross-border research networks, joint data-sharing platforms, and bilateral Memorandums of Agreement (MoUs/MoAs).

The compiled and updated evidence for SDG 17.2.3 highlights the contributions of these international collaborations:

1. Global Agency & Network Partnerships

- UN & World Bank Collaborations: Institutions partner with the United Nations Development Programme (UNDP), UNESCO, and the World Bank to gather data related to education, poverty reduction, gender equality, and climate adaptation.
- Global Data Systems: Collaboration with the Global Partnership for Sustainable Development Data (GPSDD) supports robust open-access data platforms to track key SDG indicators.
- Commonwealth Initiatives: Active engagement via Letters of Intent (LOI) with the Commonwealth Youth Council (CYC) and Commonwealth Students Association (CSA) drives international
- youth-led sustainability data mapping across 56 member countries.

2. Bilateral Agreements & Co-Creation Frameworks

- **Bilateral University Agreements: Strategic alliances, such as the agreement between Chaitanya Deemed to be University (India) and Tien Giang University (Vietnam), establish formal pipelines for academic data exchange.**
- Shared Data Portals: Development of cloud-assisted online portals facilitates joint tracking of research profiles, research data sharing, and methodology frameworks.
- Co-Creation Labs: Physical and digital co-creation hubs are utilized to monitor joint Ph.D. project metrics, datasets, and experimental evaluations.
- Nodal Coordination Centers: Dedicated entities like the Digital Information Research Labs (India) manage international data streams, distribute regular research bulletins, and track global funding availability.

3. Cross-Border Research Projects & Symposia

- International Funded Consortiums: Participation in high-level international research projects, such as the European Union's
- NextGenerationEU consortium, enables cross-border molecular and structural data evaluation.

- Eco-Friendly Agricultural Studies: Joint international publications track the environmental and toxicological metrics of plant-based alternatives to chemical pesticides.
- Smart Cities & Green Spaces: Collaborative cross-border research projects implement Naive Bayes machine learning algorithms and cloud computing to measure energy efficiency metrics in urban green spaces.
- One Health Frameworks: Presentations at major symposia, like the "One Health, One World" conference in Malaysia, connect human, animal, and environmental health metrics globally.

MEMORANDUM OF UNDERSTANDING

BETWEEN

ADAMA SCIENCE AND TECHNOLOGY UNIVERSITY (ASTU)

AND

CHAITANYA DEEMED TO BE UNIVERSITY (CDU)

July 10, 2024

Preamble

This Memorandum of Understanding (MoU) is signed to collaborate on sharing a common desire to explore, extend and strengthen the functional relationship between **Chaitanya (Deemed To be University), Gandipet, Himayatnagar, Ranga Reddy District, Hyderabad, India** (herein after also referred as CDU)

and,

Adama Science & Technology University, Adama, Ethiopia (herein after also referred as ASTU),

Article 1

Purpose of the Agreement/Collaboration

The parties agree to collaborate on sharing of the facilities and expertise available in each other's institution and broadly in the following (included but not restricted to) domains of partnership:

a. Exchange of Students
b. Exchange of Academic Staff
c. Joint Research and publications
d. Joint Conferences, Workshop and Seminars
e. Provision of dual degree and other programs
f. Mutual Visit of Academic and Non-academic Staff and Students
g. Joint Industry consultancy
h. Admission support activities
i. Joint Placement activities.

Article 2

Responsibilities of the Parties

2.1 Chaitanya {Deemed To be University), Hyderabad/ ASTU, Adama will provide mutual registration facilities for academic programs as allowed by respective University guidelines.

2.2 Students working at Chaitanya (Deemed To be University) would be able to carry out a part of their research work (PG/PhD) at ASTU and for such students ASTU faculty will be co-guide(s)/co-supervisor(s). ASTU will be happy to provide necessary laboratory

facilities. Such students and supervision shall be governed by relevant rules and regulations of ASTU and CDU. This shall also be equally applicable for such ASTU students working in CDU.

2.3 The research project to be undertaken by the student/ research scholar shall be decided through mutual consultation between the student/research scholar, supervisor/ guide, and co-supervisor/co-guide and shall normally be within the mandates of ASTU/CDU and priorities set by the Universities.

2.4 Periodical meetings of the students/research scholars with supervisors/co-supervisors will be held either at the premises of ASTU, Adama or at Chaitanya (Deemed To be University), Hyderabad.

2.5 CDU and ASTU will be happy to provide mutual short-term training to students and faculty in their areas of specialization and in other areas if required.

2.6 Chaitanya (Deemed To be University), Hyderabad and ASTU, Adama may apply for collaborative projects jointly to National and International funding agencies.

2.7 All joint research findings will be owned jointly by both the parties, but the party publishing them will be entirely responsible for the conclusions and interpretations reported.

2.8 Both the Universities may invite ASTU/CDU faculty members as visiting faculty member to deliver lecturers as per requirement of the University in various courses/capacities. Suitable honorarium may also be given to concerned scientist/university staff as per university rules and terms agreed in advance separately for each activity.

2.9 The Head/Dean/Director of the two Universities will be jointly responsible for agreeing on the terms of and working out the operational details of individual activity in order to ensure proper and effective implementation of the MoU.

2.10 Adama Science & Technology University and Chaitanya (Deemed To be University) will both provide career counseling & consultancy to the students desirous of taking admissions in exclusively or mutually run courses (Allied Health sciences/Pharmacy / Engineering /Business management etc.) at either of the university.

2.11 Chaitanya (Deemed To be University), wishes to collaborate with ASTU, Adama, in the arrangement and delivery of industry oriented joint consultancy projects.

2.12 Chaitanya (Deemed To be University) shall also explore with the active help of ASTU, the possibility of placement of students in the two countries or a third country with organizations of repute. We shall share resources and information on the same, as appropriate.

Chaitanya (Deemed to be University) Hyderabad

2.13 Any specific activity developed under this MoU shall be discussed and agreed upon in writing by both Universities prior to initiation. Specific points with regards to financial terms, facilities to be mutually provided & modus operandi in these matters shall be outlined and agreed upon under separate document(s) and signed by authorized officials from both the Universities.

2.14 No point in this MoU shall entail any financial or legal obligation on either University, unless a separate agreement is reached between the two Universities with specific reference to an activity.

Article 3

Confidentiality

Both parties agreed to maintain the confidentiality of any proprietary or sensitive information shared during the collaboration

Article 4

Terms of Cooperation

The above MoU will be effective minimum for a period of three years from the date of signing. This MoU reflects the respective institution's commitment to terms and conditions mentioned in the MoU.

Article 5

Amendments and Termination

5.1 This MoU may be amended at any time and terminated after completion of three years' time by either party provided that notice of termination or amendments is provided by the notifying party to the other party within thirty (30) days of the date on which the termination shall not have effect on any arrangement in place at the time that the notice is provided, where the arrangement arises from any Supplementary Agreements resulting from this Memorandum of Understanding.

5.2 However, obligations and commitments already contracted shall be honored and continued by both the parties until such commitments are over.

5.3 These commitments under agreement may be amended/modified/deleted after mutual agreement by means of exchange of letters between the Universities. Once approved by both the parties, such amendment shall also become a part of this **Memorandum of Understanding (MoU)**

Article 6

Dispute Resolution

Any dispute arising from this MoU will be resolved amicably through negotiation between the parties. If a resolution cannot be reached, the mater may be referred to mediation or arbitration as agreed upon by both parties.

Article 7

Effective date of the Agreement

This MoU shall be effective on the date of its signing. That is as of_____

Article 8

Signature

The MoU shall be effective up on signing by authorized representatives from both parties.

MEMORANDUM OF UNDERSTANDING

BETWEEN

DIRE DAWA UNIVERSITY

AND

CHAITANYA DEEMED TO BE UNIVERSITY

JULY 5, 2024

Sharing a common desire to explore, extend and strengthen the functional relationship between **Chaitanya (Deemed To be University), Gandipet, Himayatnagar, Ranga Reddy District, Hyderabad, India** (herein after also referred as CDU) and **Dire Dawa University, Dire Dawa Ethiopia** (herein after also referred as DDU), in order to share the facilities and expertise available in each other's institution and broadly in the following (included but not restricted to) domains of partnership:

- Exchange of Students
- Exchange of Academic Staff
- Joint Research and publications
- Joint graduate students supervision
- Joint Conferences, Workshop and Seminars
- Provision of dual degree and other programs
- Mutual Visit of Academic and Non-academic Staff and Students
- Joint Industry consultancy
- Admission support activities
- Joint Placement activities

We herewith sign a Memorandum of Understanding (MoU), which reads as follows:

1. Chaitanya {Deemed To be University), Hyderabad/ DDU, Diredawa will provide mutual registration facilities for academic programs as allowed by respective University guidelines.
2. Students working at Chaitanya (Deemed To be University) would be able to carry out a part of their research work (PG/PhD) at DDU and for such students DDU faculty will be a co-guide(s)/co-supervisor(s). DDU will be happy to provide necessary laboratory facilities. Such students and supervision shall be governed by relevant rules and regulations of DDU and CDU. This shall also be equally applicable for such DDU students working in CDU.
3. The research project to be undertaken by the student/ research scholar shall be decided through mutual consultation between the student/research scholar, supervisor/ guide, and co-supervisor/co-guide and shall normally be within the mandates of DDU/CDU and priorities set by the Universities.
4. Periodical meetings of the students/research scholars with supervisors/co-supervisors will be held either at the premises of DDU, Dire dawa or at Chaitanya (Deemed To be University), Hyderabad.

Chaitanya (Deemed to be University) Himayathnagar (M) Moinabad (M) Rangareddy (D) Hyderabad

5. CDU & DDU will be happy to provide mutual short-term training to students and faculty in their areas of specialization and in other areas if required.
6. Chaitanya (Deemed To be University), Hyderabad and DDU, Dire dawa may apply for collaborative projects jointly to National and International funding agencies.
7. All joint research findings will be owned jointly by both the parties, but the party publishing them will be entirely responsible for the conclusions and interpretations reported.
8. Both the Universities may invite DDU/CDU faculty members as visiting faculty member to deliver lecturers as per requirement of the University in various courses/capacities. Suitable honorarium may also be given to concerned scientist/university staff as per university rules and terms agreed in advance separately for each activity.
9. The Head/Dean/Director of the two Universities will be jointly responsible for agreeing on the terms of and working out the operational details of individual activity in order to ensure proper and effective implementation of the MoU.
10. Dure dawa University and Chaitanya (Deemed To be University) will both provide career counseling & consultancy to the students desirous of taking admissions in exclusively or mutually run courses (Allied Health sciences/Pharmacy / Engineering /Business management etc.) at either of the university.
11. Chaitanya (Deemed To be University), wishes to collaborate with DDU, Dire dawa, in the arrangement and delivery of industry oriented joint consultancy projects.
12. Chaitanya (Deemed To be University) shall also explore with the active help of DDU, the possibility of placement of students in the two countries or a third country with organizations of repute. We shall share resources and information on the same, as appropriate.
13. Any specific activity developed under this MoU shall be discussed and agreed upon in writing by both Universities prior to initiation. Specific points with regards to financial terms, facilities to be mutually provided & modus operandi in these matters shall be outlined and agreed upon under separate document(s) and signed by authorized officials from both the Universities.
14. No point in this MoU shall entail any financial or legal obligation on either University, unless a separate agreement is reached between the two Universities with specific reference to an activity.

Chaitanya (Deemed to be University) Himayathnagar (V) Moinabad (M) Rangareddy (D) Hyderabad

Federal Democratic Republic of Ethiopia Dire Dawa University

15. The above MoU will be effective minimum for a period of three years from the date of signing. This MoU reflects the respective institution's commitment to terms and conditions mentioned in the MoU. This MoU may be amended at any time and terminated after completion of three years' time by either party provided that notice of termination or amendments is provided by the notifying party to the other party within thirty (30) days of the date on which the termination shall not have effect on any arrangement in place at the time that the notice is provided, where the arrangement arises from any Supplementary Agreements resulting from this Memorandum of Understanding.

16. However, obligations and commitments already contracted shall be honored and continued by both the parties until such commitments are over. These commitments under agreement may be amended/modified/deleted after mutual agreement by means of exchange of letters between the Universities. Once approved by both the parties, such amendment shall also become a part of this **Memorandum of Understanding (MoU)**

In witness whereof, the parties hereto caused this agreement to be executed as of the day, month and year indicated below:-

MEMORANDUM OF AGREEMENT

between

Chaitanya deemed to be University, India

and

Tien Giang University, Vietnam

Permeable and Scope

This Memorandum of Agreement between **Chaitanya University, India and Tien Giang University, Vietnam**, will be reflected in various ways, including a co-creation lab with the two universities.

The proposed MOA and co-creation lab are not just a platform but a system that will significantly enhance the quality of teaching and research in the two universities. Active involvement is not just important; it's critical to unlocking this initiative's full potential.

The MOA aims to enhance teaching and collaboration in the two participating universities. It will serve as a means of sharing teaching practices, models, research practices, and successful e-learning and mentoring programs. The MOA will include two universities and one nodal centre as collaborators. Initially, this MOA will include a few subjects, such as Computer Science, Library and Knowledge Resources, Business, and Management, and excited about the potential for the subject scope to increase.

Research Collaboration is crucial for the MOA's success. The participating members will share their research profiles on the platform. Similar research interests will be identified, and collaborating research will be initiated. Co-authored papers will be generated for conferences and journals, ensuring high quality.

Recital:

This Memorandum of Agreement ("MOA") constitutes the parties' intent to collaborate on academic development according to the curricula, programmes, and studies offered at both institutions. It also strengthens the research activities of both universities.

It is with this agreed between the Parties as follows:

1. The Parties agree to enter into specific discussions involving students, researchers, and academicians at each organization regarding collaborative knowledge/ data sharing and research.
2. The Parties also agree to explore and design provisions for the following activities, such as International Conferences/Training

3. Ph.D. Programmes/ Research/Projects (Joint professor supervision of student projects/ thesis/ research works)
4. Academic Staff and Student Exchange Programmes
5. Internship or Research Placements for Students and Summer School arrangements for students

Purpose of the MoU:

This Memorandum of Understanding (MoU) establishes a collaborative framework between **Tien Giang University (TGU), My Tho, Vietnam** and **Chaitanya Deemed to be University (CDU)**, Hyderabad, India for the following areas:

1. *International Conferences*
2. *Ph.D. Programmes/ Research/ Projects (Joint professor supervision of student projects/ theses/ research works)*
3. *Academic Staff and Student Exchange Programmes*
4. *Internship or Research Placements for Students and Summer School arrangements for students*
5. *Training*

1. International Conferences

a. Objective: To enhance global academic exposure and increase academic and research networking.

b. Activities: The Parties will jointly organize international conferences, workshops, and training sessions on various academic and research topics. These events will be open to faculty, students, researchers from both institutions and external participants. The aim is to foster a global dialogue on emerging trends, research findings, and innovative practices across various fields of study.

c. Operational: This part will be practised more specifically with the below terms. Preparing and sending proposals to various international reputed publishing houses such as Elsevier, IEEE, Springer, and IOS. The International Cooperation offices in the two universities identify potential topics and themes every year. The committee will be framed to determine who works on developing themes and scope. The international committee, dates and publication activities will be planned. The Call For Papers and publication proposals are prepared to submit to the above publishing bodies.

2. Ph.D. Programmes/Research/Projects:

a. Objective: To promote advanced research and innovation through collaborative supervision and joint research projects.

b. Activities: The Parties will facilitate joint supervision of Ph.D. students, allowing them to benefit from the expertise of faculty members at both institutions. Collaborative research

projects will be encouraged, with the potential for joint publications, patents, and research grants. This includes the sharing of research facilities, data, and resources.

c. Operational: This part will be implemented by several means, as listed below.

i. When Phd students enrol, they are asked to submit proposals in consultation with guides. An international expert committee evaluates these proposals and suggests the methodological framework, datasets, and experimental evaluation. Two universities will work jointly by circulating the proposals and inviting international experts to suggest. The two universities will organize a joint online research meeting. Only some phd proposals from these two universities need to go through this process. One university can submit to the forum if it decides on this mode.

ii. The researchers and faculty members of these two universities interested in collaborative research can express their interest in one theme or area through the forum. This is an expression of ideas shared among the faculty members of the two universities. The other researchers interested in the same theme can join and work to carry out the program.

iii. The researchers and faculty members can identify potential themes for submitting funded research projects in several national and international research programs. They express their interest in working on a particular theme for any particular project so that interested researchers from both universities can join.

3. Academic Staff and Student Exchange Programmes:

a. Objective: To promote cross-cultural understanding and academic enrichment through exchange programmes.

b. Activities: Both institutions will design and implement exchange programmes for faculty and students. These exchanges will allow participants to study or teach at the partner institution for a designated period. The programme exposes students and faculty to different academic environments, teaching methodologies, and cultural perspectives.

c. Operational: This scheme will be realised by fixing a period and topic for the exchange. The funding part of this program can be based on international grant availability, the possibility of the universities' contribution and sharing a part of travel expenses by the students and researchers. The two universities can discuss a possible twinning program and, if possible, offer a degree from a university in a developed country.

4. Internship or Research Placements for Students and Summer School Arrangements:

a. Objective: To provide students with practical experience and additional learning opportunities in an international context.

b Activities: The Parties will facilitate internship opportunities and research placements for students at partner institutions or affiliated organizations. Additionally, summer school

programmes will be developed to offer intensive courses, workshops, and field experiences. These opportunities will focus on practical applications of academic knowledge and exposure to international research environments.

c. Operational: The task will be run by organizing several internship programs, both online and offline. These programs will guide the students in an international setting to ensure that they are eligible for job placements anywhere globally.

5. **Training**

a. Objective: To provide students and faculty members to update their knowledge in learning and research

b. Activities: Training programs will be instituted on learning and research on various tasks such as doing research, learning models, use of online resources and research writing

c. Operational: The task will be instituted in many stages on new technology, current trends, learning skills, research writing, data management, and cutting-edge research.

Role of the nodal centre

The nodal center in the base ensures that it is functional and allows the two participating universities to work in operational terms, delimiting the paper agreement.

A nodal centre (Digital Information Research Labs, India) will coordinate with the two universities and perform the activities below through the online portal.

Prepare regular bulletins about new developments in research, including international projects available, new journal special issues, and new topic-related conferences. Indicate the new research funding availability to the members. Arrange web-based special talks for the members on new research themes. Arrange online and physical programs to improve the members' research capabilities. Enable members to publish high-level research in different journals and conferences. Work to enhance the visibility of the member universities. Arrange online meetings between the three universities for academic and research discussion. Communicate about publishing opportunities with the three universities. Suggest the three universities prepare a web-based solid information system for faculty members.

The mode of portal operation

The portal created to implement the agreement will serve as a connection platform for both universities. Content and programs will be regularly loaded into it. The faculty and researchers identified by the universities will be permitted to log in. There will be a profile page for each member. They fill their learning and research interest, expressing their speciality regarding keywords and feedback to the portal administration.

The portal initially has a subject classification of contents. The portal regularly announces the research in each sub-domain, tools for research, writing help, projects and funding available,

mentoring available, and it is a kind of push service. The participating members pose queries for teaching, learning and research to the portal. A three-member team from each university and one from the nodal centre will hand the proposed portal. The members can access to the content and get answers to their issues, which will be responded to by any one of the managing team.

Teaching

The teaching and learning models will be shared among the MOA members. Mentoring programs will be initiated. Faculty members from other universities will travel and teach students. Best teaching practices and learning packages will be shared among the three universities.

Mode of operation

Both universities suggest that three senior faculty/administrative members to work to implement the agreement.

The outcome will be

- Sharing teaching and learning resources
- Increasing the research capability of faculty members
- Work together to bring collaborative research publications
- Reaching international visibility
- Reaching research funding mechanisms

Deliverables

This effort is not confined to the paper-based agreement but will result in productivity. Finally, it helps improve ranks in various accreditation processes and achieve high scores in the global ranking systems.

Implementation and administration components

Confidentiality: During the Term of this MoA, each Party shall treat all information disclosed by the other Party in connection with the collaboration as confidential ("Confidential Information"). Each Party shall use the same internal security procedures and apply the same degree of care in maintaining the secrecy and confidentiality of the Confidential Information as it does for its similar confidential information. Confidential Information does not include information that:

(i) is publicly available through no breach of this MoA;
(ii) is obtained from a third party with the legal right to disclose the information; or
(iii) must be disclosed by law, government regulation, or court order.

Independent Contractors:

Each Party is an independent contractor and has no authority to bind or act on behalf of the other Party. Each Party is solely responsible and liable to the other Party for its actions and omissions and those of its trustees, directors, officers, employees, and agents concerning the

industrial collaboration or any materials or data transferred in connection with the collaboration.

Implementation of Collaboration:
Nothing in this MoA shall be construed as an obligation to enter into specific agreements or documents to implement the collaboration. If the Parties fail to execute such specific contracts or documents, neither Party shall be liable to the other concerning such a transaction or the failure to conclude it.

Representations and Warranties:
Nothing contained in any discussions between the Parties or in any information disclosed by either Party, as contemplated by this MoA, shall constitute a representation or warranty, except for matters expressly specified in this MoA or any signed specific collaborative agreements and documents.

No Obligation to Compensate:
Nothing in this MoA shall be construed to obligate either Party to compensate the other in any manner except as may be otherwise expressly agreed upon in writing between the Parties.

Term and Renewal:
This MoA will be effective for five (5) years from the date of the last signature and will be renewed for the same period upon mutual consent of both Parties (the "Term").

Modification and Termination:
This MoA may be modified, discontinued, or cancelled by written notification by either Party at any time, for any reason.

Duration of the MoU:
This MoU will become effective on the date of signing and remain in force for five years, subject to renewal by mutual agreement.

IN WITNESS WHERE of, the undersigned Parties have agreed and executed this document.

Memorandum of Understanding

Ceremony for the Signing of a Partnership Agreement with the Chaitanya Deemed to be University, India and Tien Giang University, Vietnam

***

On October 17, 2024, Tien Giang University, TNU, hosted a formal signing ceremony to establish a strategic partnership with the Chaitanya Deemed to be University, India.

The ceremony was attended by **Assoc. Prof. Vo Ngoc Ha, President** of Tien Giang University, along with senior administrators and External Relations Officers. Representing Chaitanya Deemed to be University, India, were Professor G. Shankar Lingam and Professor M. Shankar Lingam.

During the event, **Assoc. Prof. Vo Ngoc Ha** provided an overview of Tien Giang University's educational methodologies, emphasizing their commitment to developing faculty and student competencies through experiential and practice-based learning.

Both institutions signed a Memorandum of Understanding (MoU) to collaborate in promoting and implementing the Action Learning methodology in Vietnam. The agreement also outlined their cooperation in the following areas:

Purpose of the MoU:
This Memorandum of Understanding (MoU) establishes a collaborative framework between Tien Giang University (TGU), My Tho, Vietnam, and Chaitanya Deemed to be University (CDU), Hyderabad, India, in the following areas:

1. ***International Conferences***
2. ***Ph.D. Programmes/Research/Projects (joint supervision of student projects, theses, and research work)***
3. ***Academic Staff and Student Exchange Programmes***
4. ***Internship or Research Placements for Students and Summer School arrangements***
5. ***Training Programs***

This MoU was signed prior to the inaugural session of the **International Conference on Real-time Intelligent Systems (RTIS 2024)** and the **STMEI 2024 International Conference in Vietnam**.

Prof. G. Shankar Lingam, on behalf of CDU, expressed his pleasure in establishing this partnership with Tien Giang University and conveyed his optimism for the shared development of both institutions.

Professor M. Shankar Lingam also expressed his enthusiasm for the collaboration, highlighting plans for future international conferences in Computer Science and multidisciplinary subjects, with the aim of publishing proceedings in SCOPUS-indexed journals through collaborations with platforms like Springer and IEEE Xplore.

Assoc. Prof. Vo Ngoc Ha extended his gratitude for the partnership and reaffirmed Tien Giang University's commitment to building a sustainable, long-term collaboration for future growth.

Dr. M. Shankar Lingam
Professor, CDU
