4.3.5 - Does your university as a body have a policy that ensures that access to these activities is accessible to all, regardless of ethnicity, religion, disability, immigration status or gender?

YES, CHAITANYA (DEEMED TO BE UNIVERSITY) upholds a strong commitment to equity, diversity, and inclusion in all its academic and outreach activities. The institution has well-defined policies and practices that ensure equal access and participation for all individuals irrespective of ethnicity, religion, caste, gender, disability, socio-economic background, or immigration status.

CHAITANYA's Equal Opportunity Policy, aligned with constitutional and statutory mandates, guarantees a discrimination-free environment across all academic, administrative, and community-based initiatives. The Anti-Discrimination Cell, Gender Sensitization Committee, and Grievance Redressal Cell work collaboratively to monitor and uphold inclusivity in every programme and event.

All educational activities, including outreach programmes, training sessions, and community engagement initiatives, are designed and implemented with universal accessibility in mind. Facilities such as ramps, elevators, assistive technologies, and inclusive learning materials ensure that persons with disabilities can participate fully.

Through these institutional mechanisms and policies, CHAITANYA ensures that access to education and community engagement remains open, fair, and inclusive for all, reflecting the core belief in **"Education without Barriers"**

While institutional policies are formally documented via administrative charters, the photographic material confirms the practice of universal access. The university-hosted activities show diverse engagement across all demographics, documenting balanced gender representation (such as dedicated women-led national training units) and equal access for vulnerable rural communities, reinforcing non-discriminatory access to all university public programs.
